## CALL FOR APPLICATIONS

**BRAND NEW** application rules!

**Submit your project before October 31<sup>st</sup>!**

Open to EU projects partnering with a French structure !

**APPLY NOW**

MATWIN, French open innovation platform in oncology aiming at optimising the development and transfer potential of innovative projects, opens a new call for applications offering even more visibility and efficiency.

Apply to MATWIN to boost your project:

- Pitch in front of a multidisciplinary panel of experts
- Personalised coaching to optimize the structuring of the project
- Best projects presentations to a unique international Board of experts
- Possibility to access additional funding

All details on [MATWIN website](#)

### **REMINDER:**

MATWIN & Cancer Campus organise an outreach session on September 20<sup>th</sup> & 21<sup>st</sup> at Chimie Paris Tech in Paris, aimed at project leaders (academics or start-ups) of an innovation in oncology. This training allows, over a day, to identify the main challenges, constraints and key success factors for the development of an early innovation in oncology through different topics, in the presence of renowned experts and all based on concrete examples. Don't miss this opportunity to optimise the potential of your application !
